OUR APPROACH

How likely is a campaign to get funded?

1

We learn from the past

372,293

past campaigns

›

2

You enter your plan

GOAL	CATEGORY
$10,000	Tabletop Games
COUNTRY	**LENGTH**
US	30 days

LAUNCH DAY

Tuesday

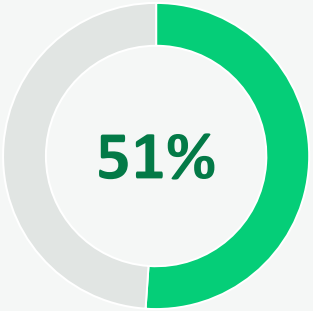

TITLE

“Heroes of the Frozen Northern Isles”

›

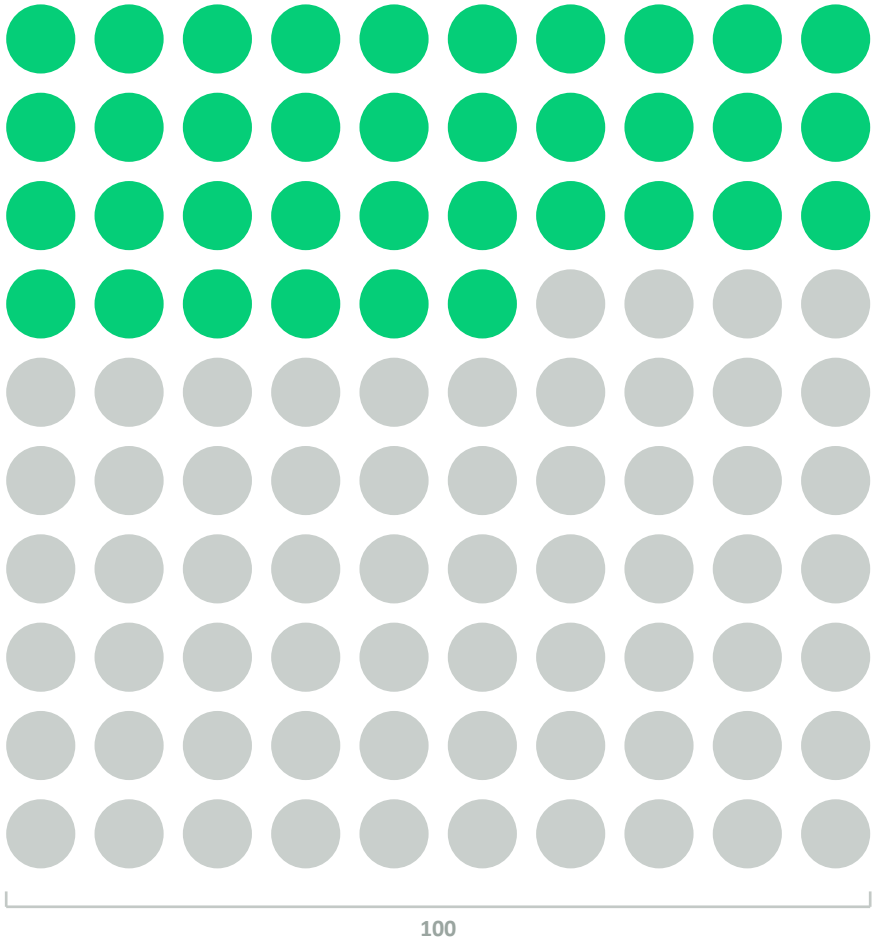

3

You get your chance

chance of funding

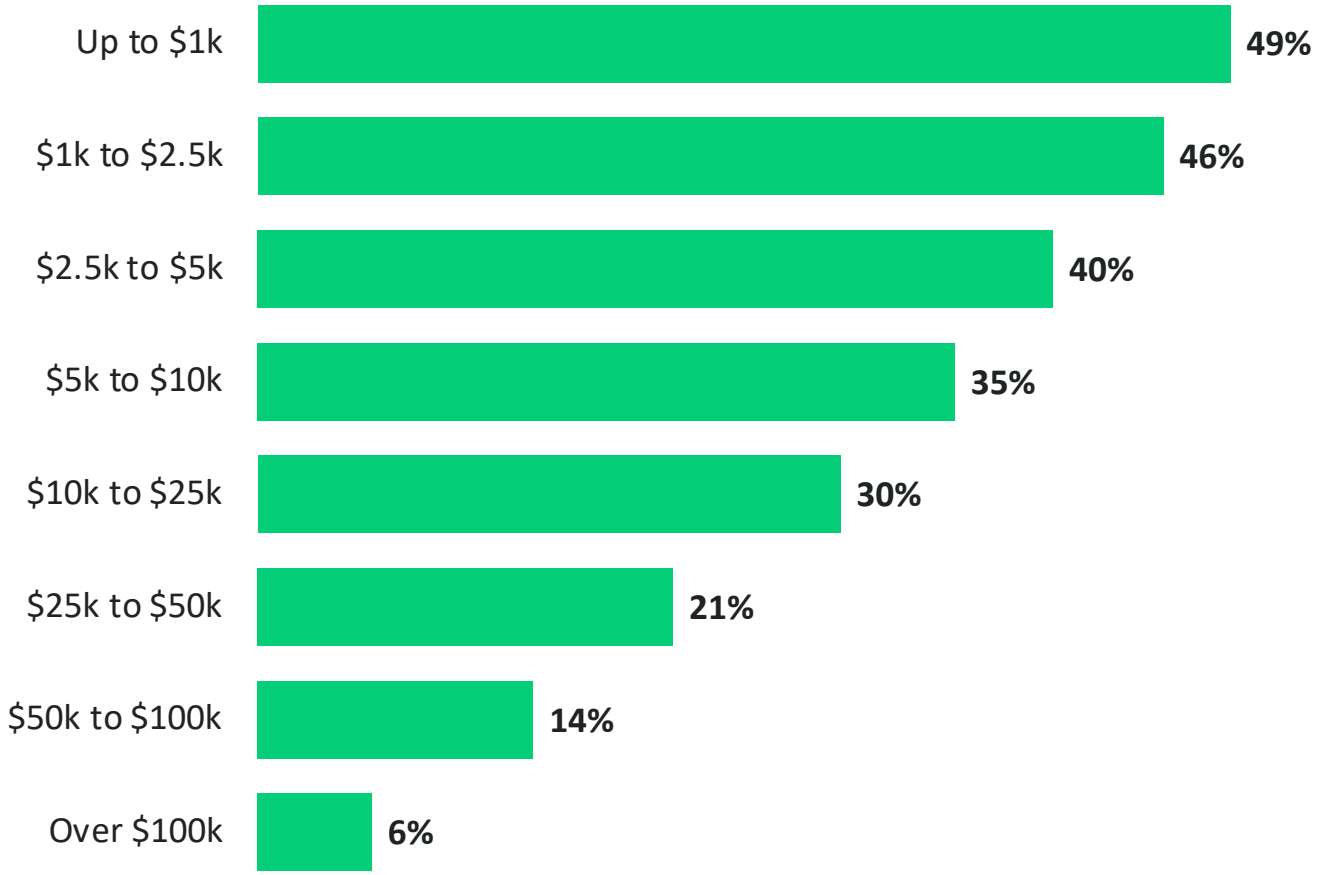

~1/3 of all projects get funded

36 got funded

64 not funded

Smaller goals get funded far more often

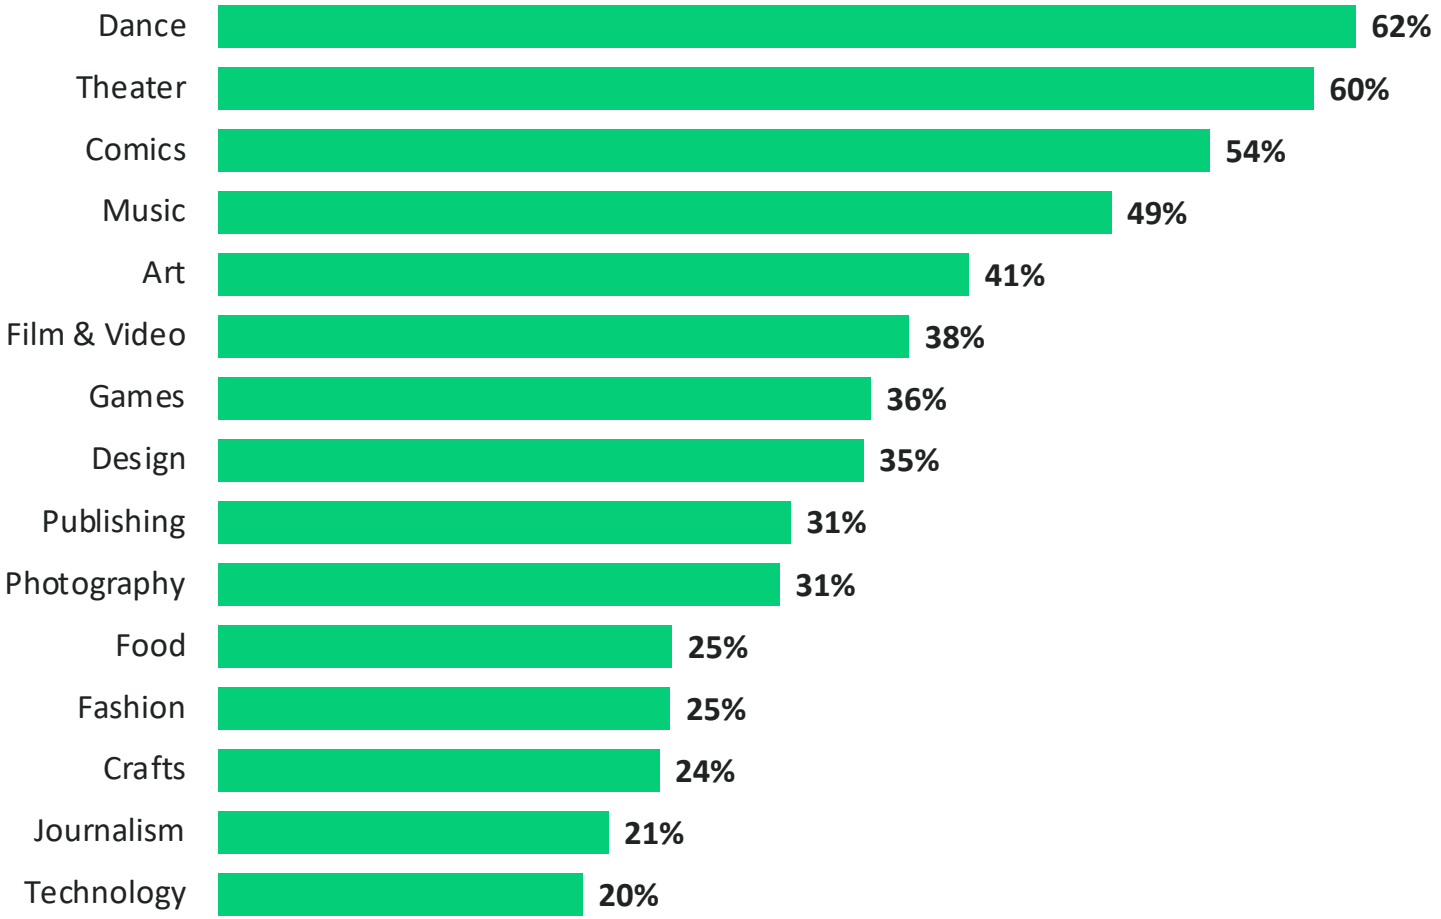

49%

funded · goal up to $1k

6%

funded · goal over $100k

Arts beat tech: Dance 62%, Technology 20%

Why tech struggles

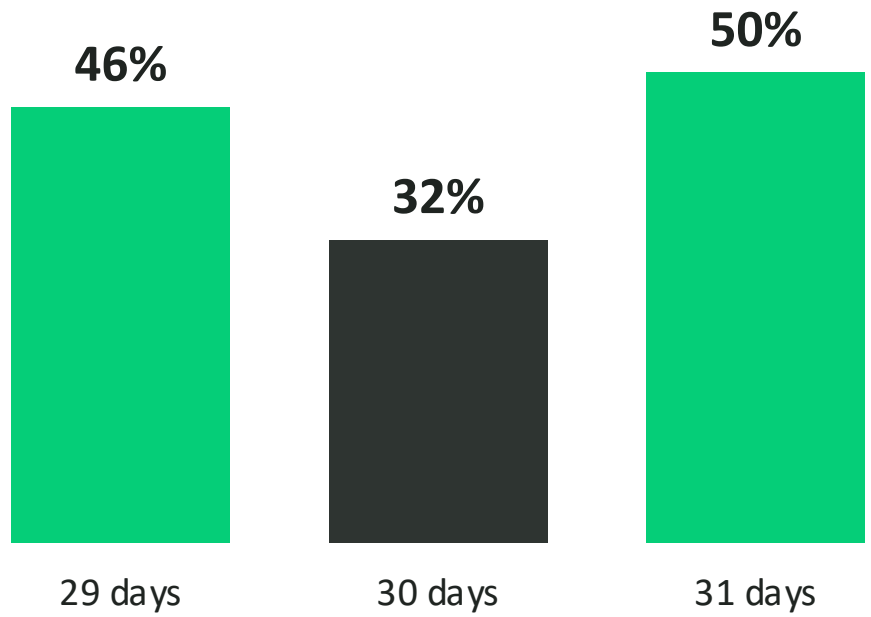

Goals too high.

FINDING 3 · THE LENGTH

The 30-day default and 60 days do worst

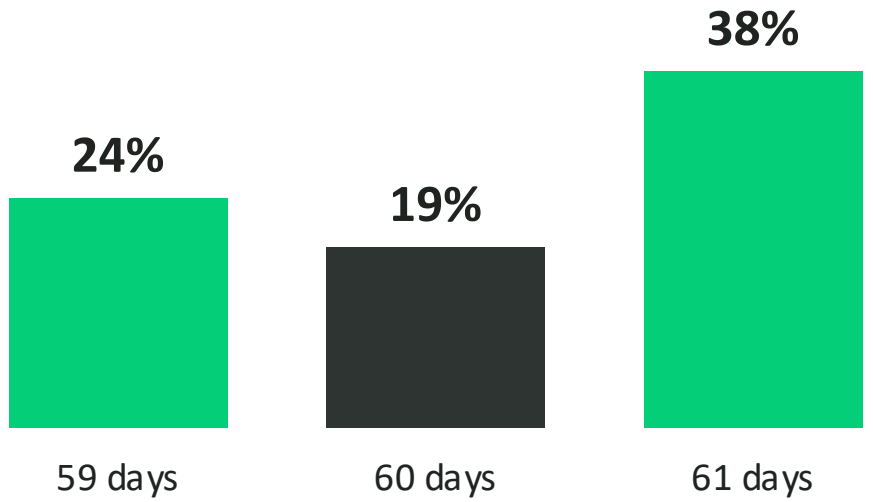

30 days · the default

45% of all campaigns

60 days · the maximum

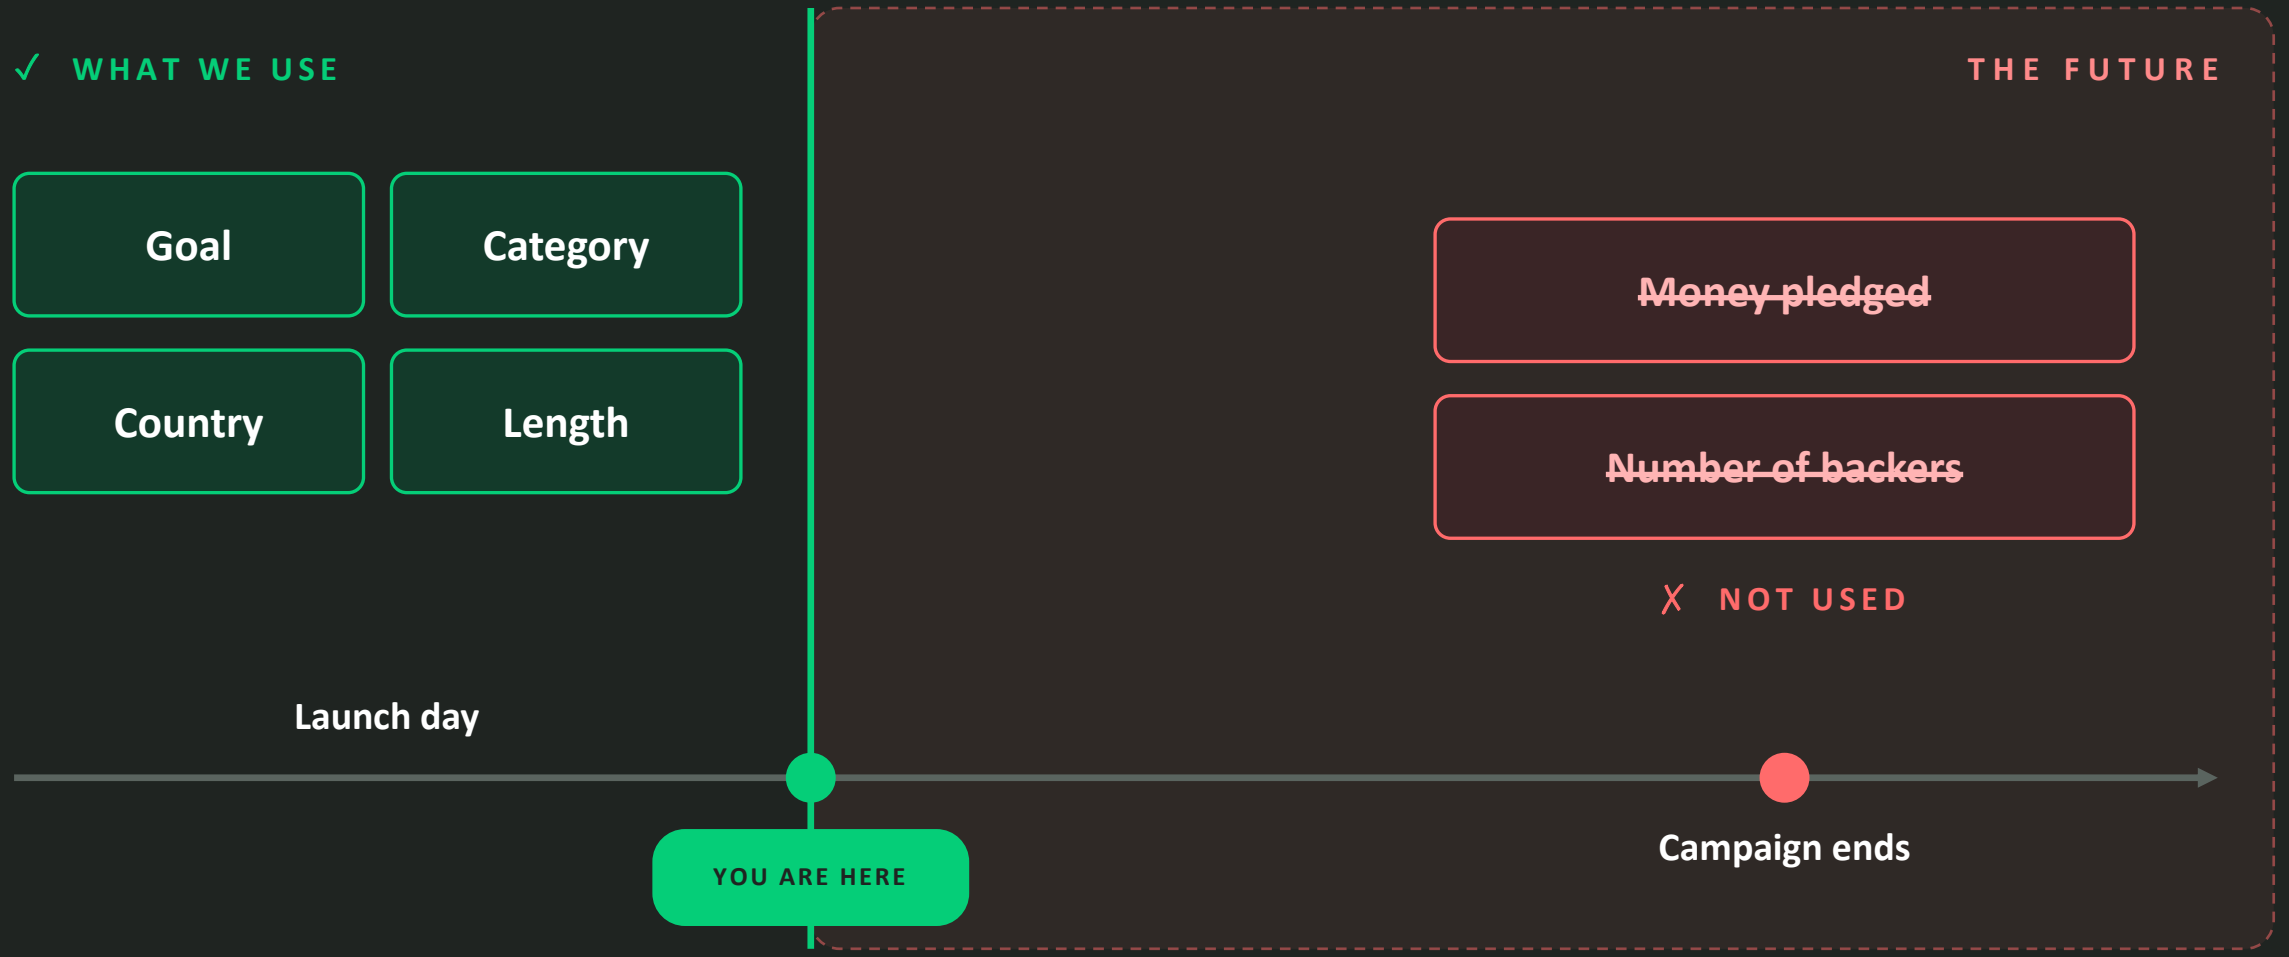

9% of all campaigns

Round number = weakest result.

A KEY STEP

The trap: data from the future

OUR PROCESS

How we built it

1

Clean the data

2

Remove future data

3

80%

to train

4

20%

for the test

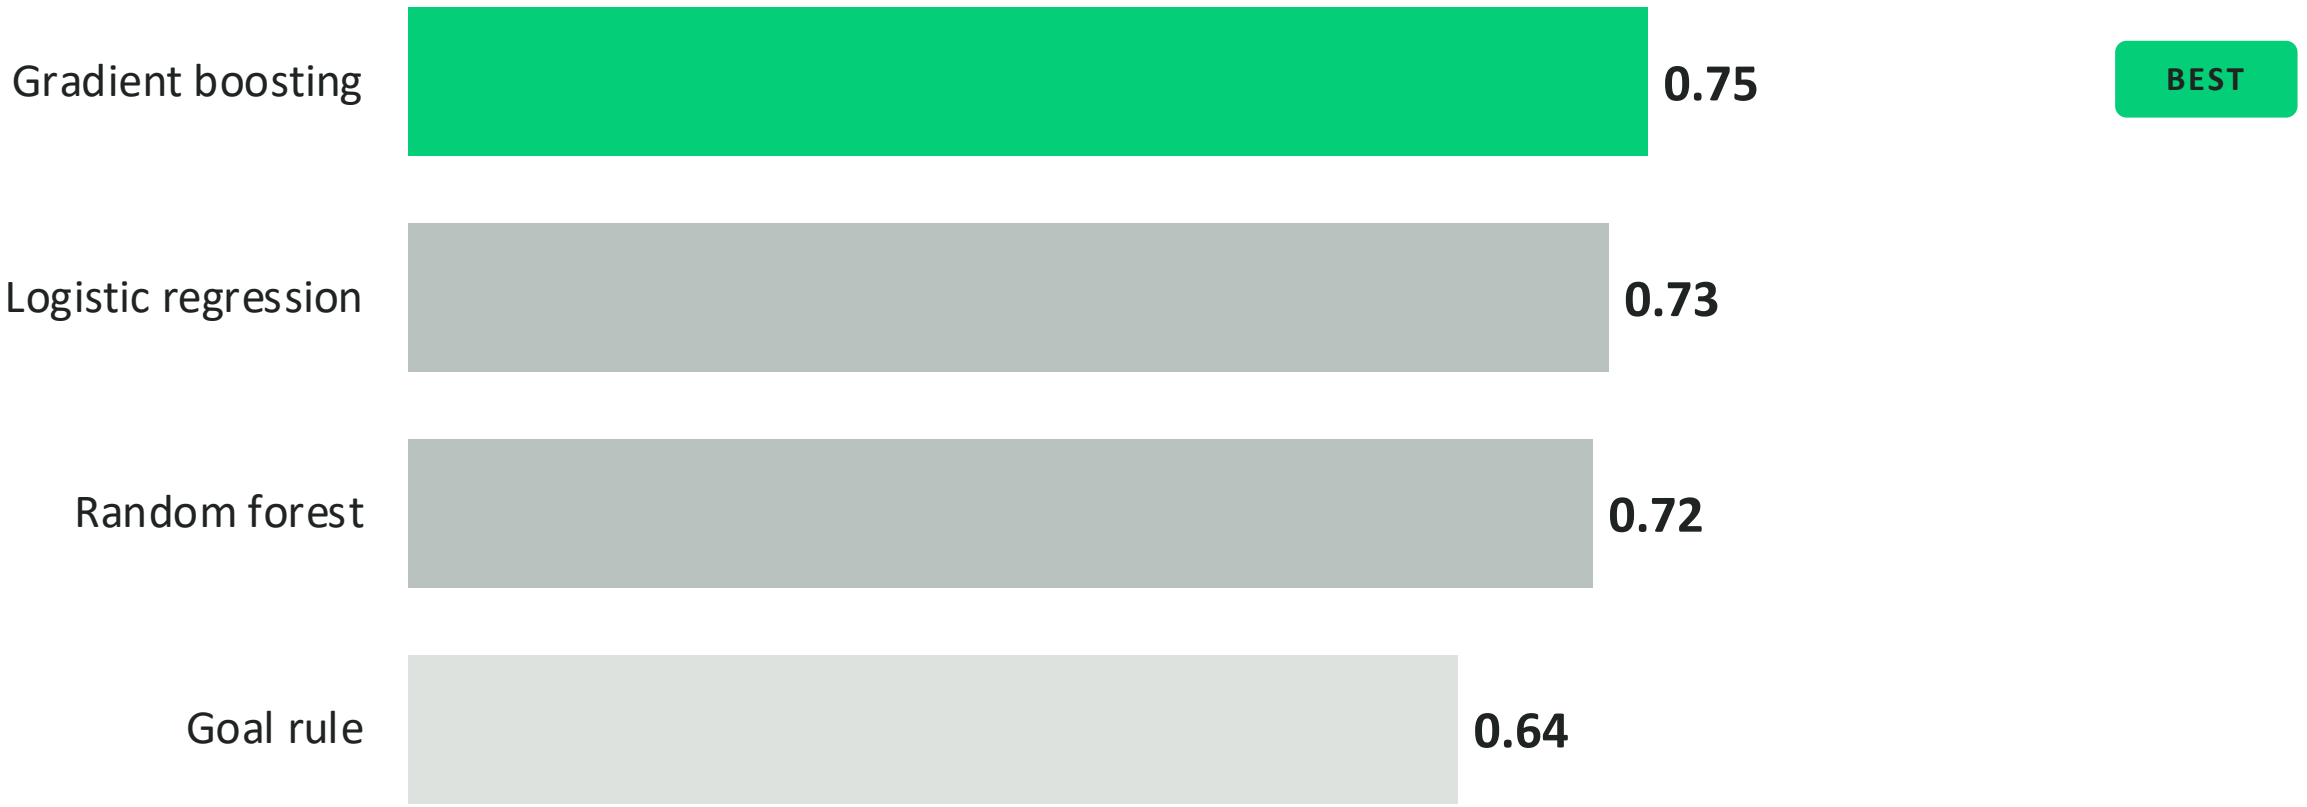

5

Pick the best model

MODEL COMPARISON

Gradient boosting performed best

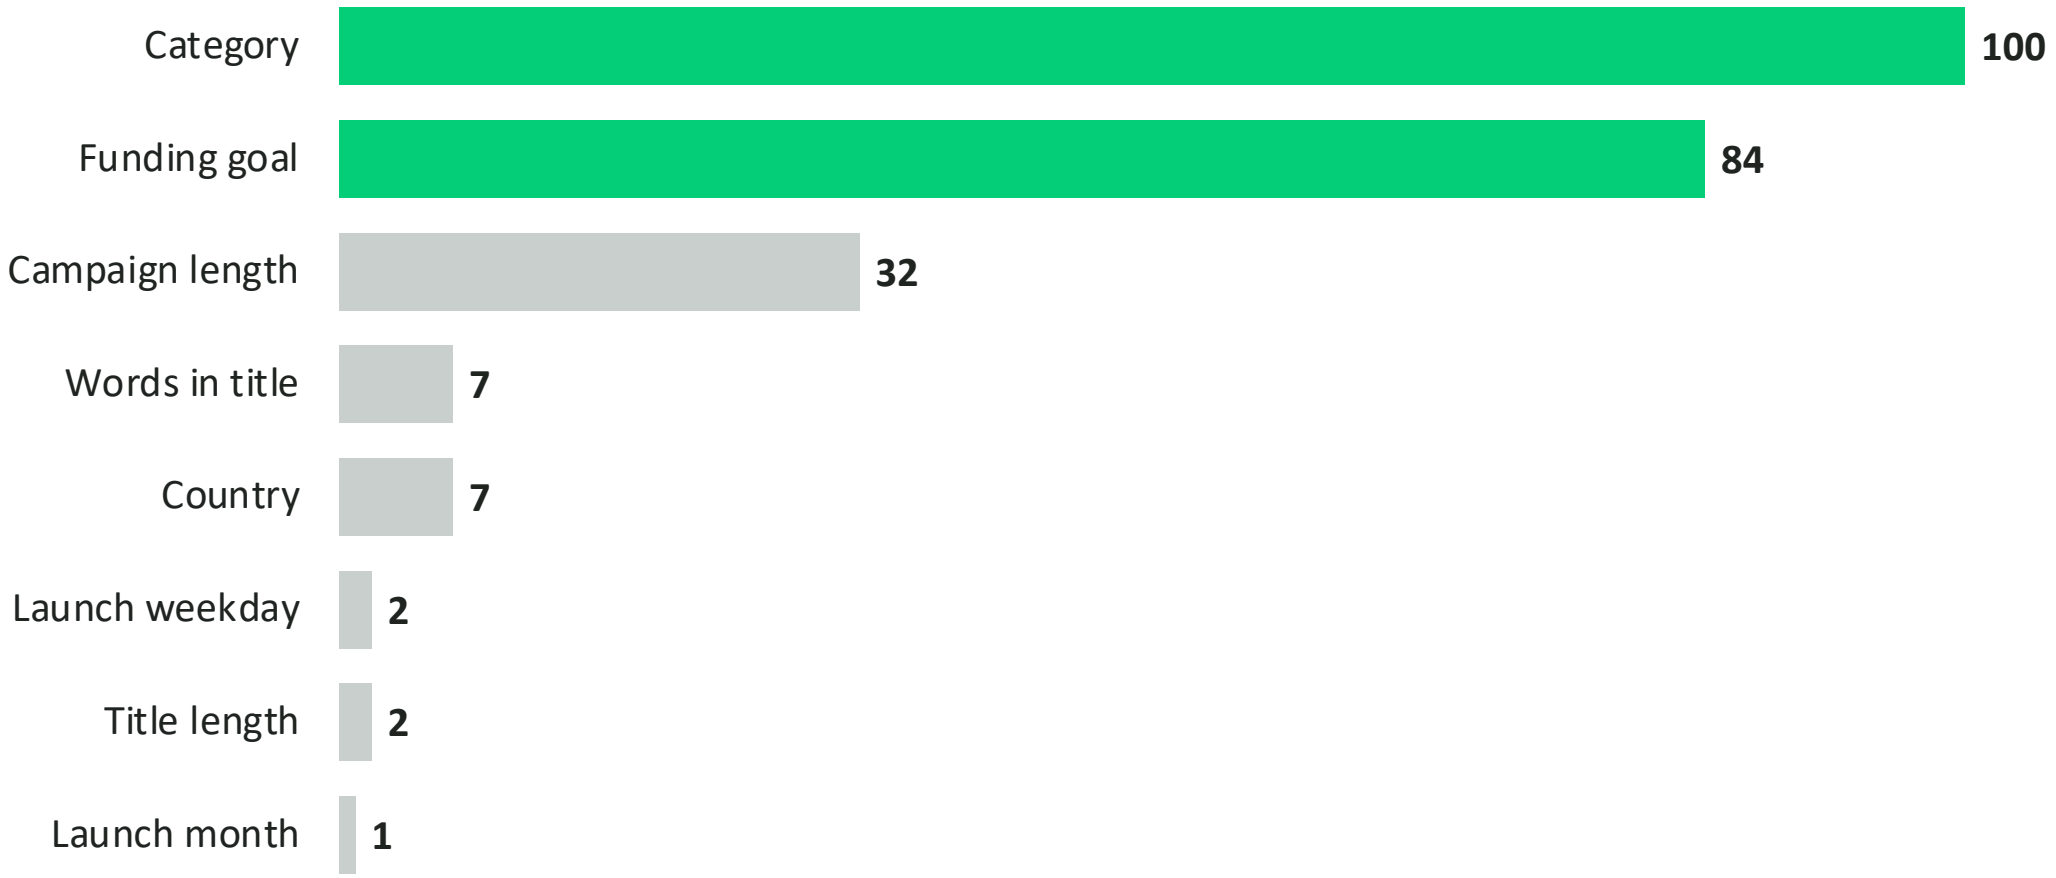

When we predict 35%, 35% get funded

Campaign plan → Our model learned from 372,293 → Predicted chance

WHAT THE MODEL LOOKS AT

Category and goal drive the prediction

A board game, checked before launch

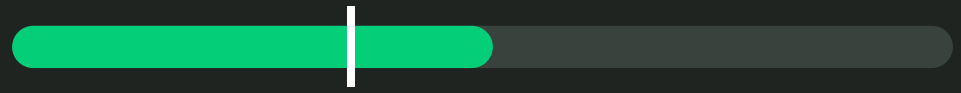

The plan

Category	**Tabletop Games**
Country	**US**
Funding goal	**$10,000**
Campaign length	**30 days**

Chance of funding

51%

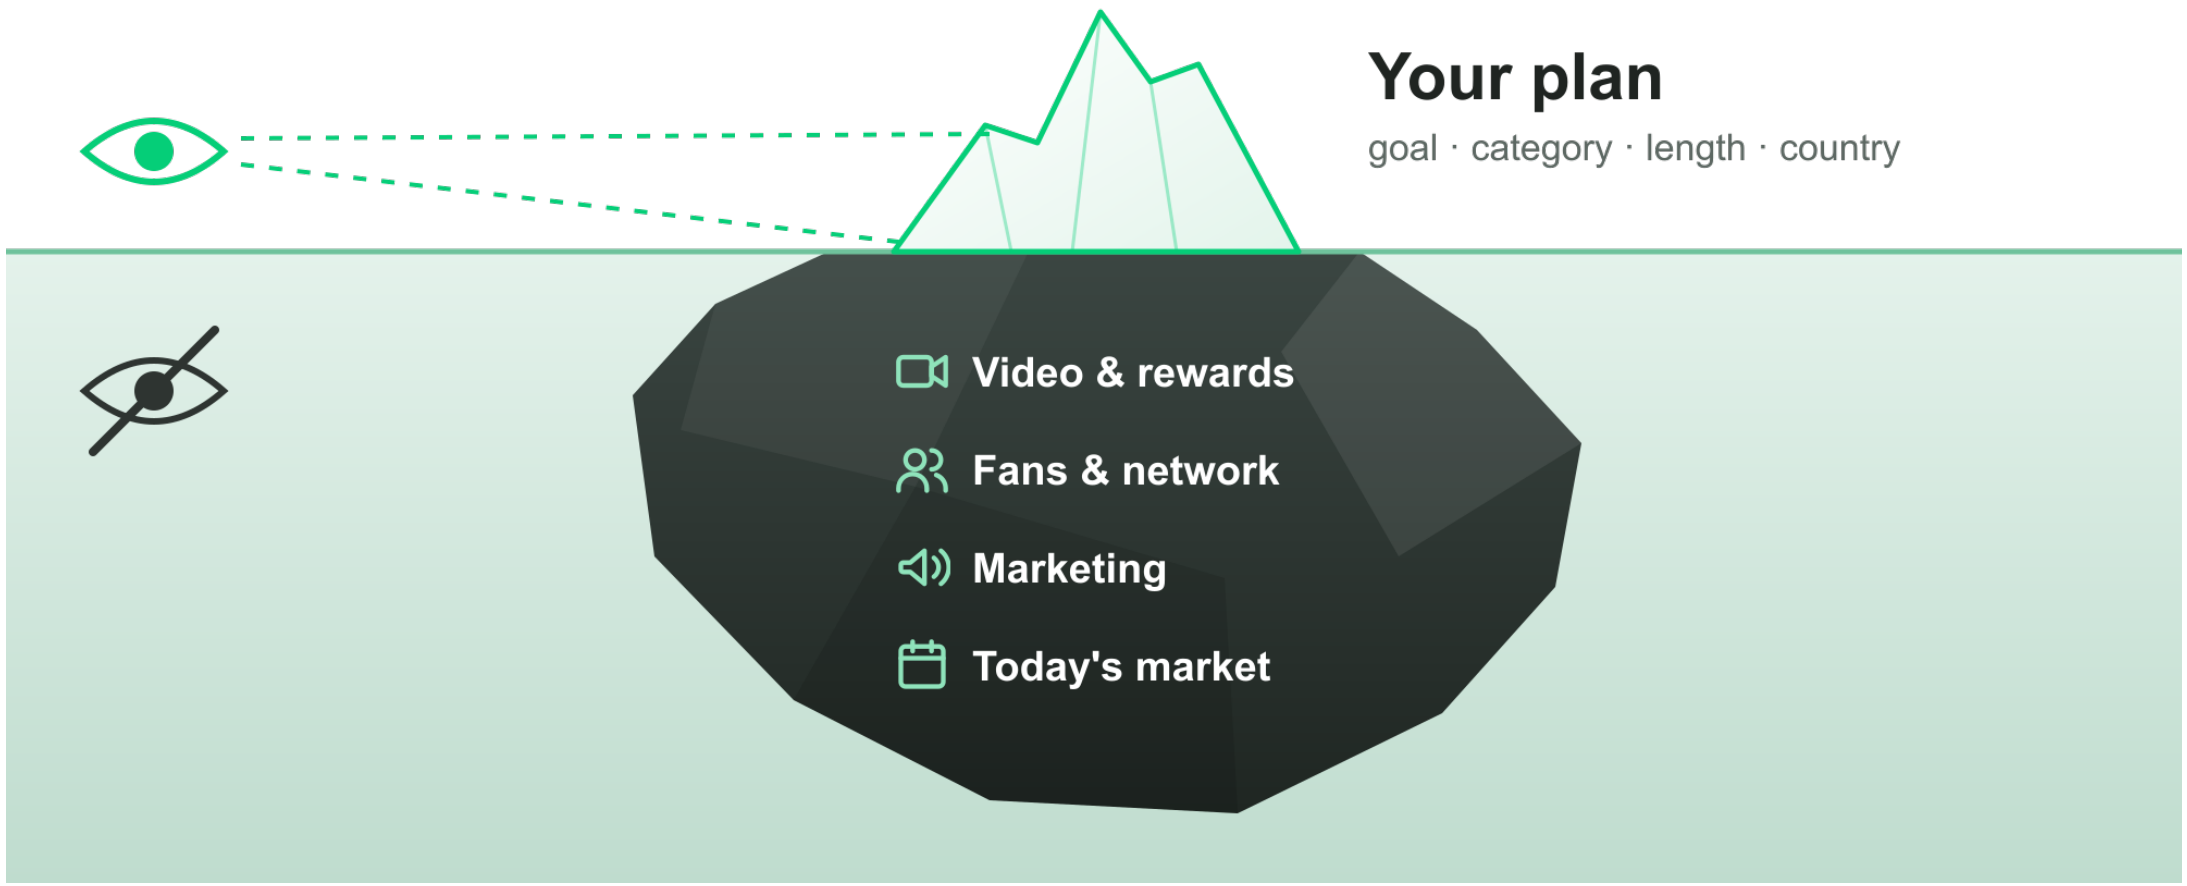

ABOVE AVERAGE

Average campaign: 36%

WHAT THE LAUNCH CHECK CANNOT SEE

Limitations & Constraints

Insights & Recommendations

1

Set a realistic goal

up to $1k: 49% · over $100k: 6%

2

Pick your end date on purpose

30 days: 32% · 60 days: 19%

3

Know your category

Dance 62% · Technology 20%

Thank you for your attention.
